

PU PIRAMIDE

Dimensions	1000 mm x 500 mm x 30/50/100 mm
Color	anthracite
volumetric weight	30 kg /m ³
Temperature of use	-40° bis +100°C
Thermal Conductivity	0,04 W/mK
fireproof	Class B2

Sound absorption capacity

	125	250	500	1000	2000	4000
PU PYRAMID 30mm	0,05	0,15	0,31	0,64	0,94	1,13
PU PYRAMID 50mm	0,06	0,22	0,44	0,69	0,99	1,03
PU PYRAMID 100mm	0,08	0,53	0,90	1,03	0,97	1,03

application possibilities

PU Pyramid is a sound absorbing material based on high quality materials, soft foam PU. Thanks to the resistance to the sound waves and the structured develops a product against noise with excellent absorption and an optical attractiveness. Coverings of rooms in the private sector (for rehearsals, hobby room, etc.).

Cabins Radio hoast etc. ..)

General measures to reduce noise

Features

- Broadband absorption of sound covering a wide range of frequencies (absorbent porous)
